About Ekena Millwork

NOT JUST A PRODUCT...A SOLUTION!

Our goal at Ekena Millwork is to do nothing short of revolutionize the millwork industry. Our focus on how to do that is simple: performance. We are taking today and tomorrow's technology and integrating it with the beauty of architectural millwork. We exist to provide not just a product line, but an entire millwork solution for your needs.

We have technology systems that can be seamlessly integrated into your setup to allow near flawless communication between our two companies. Our customer service team will respond to your needs immediately, allowing you to provide YOUR customers with the highest level of service possible.

Each of our customers is seen as and treated like a personal business partner, not just another entity that buys product. We want to team-up and make available the tools and products that you need to do the best possible job. We will be successful by helping you be successful.

OUR CORE PRINCIPLES

Our principles are present in our every day work and keep us in line with what actions we need to take to help you succeed.

Work Hard

We take pride on how hard each and every person at our company works. If something needs to get done, it gets done immediately. If we have to stay until all hours of the day or night to complete a project, it gets done. If we say we are going to do something, it gets done. You will not find a company that works harder for your business than we do.

Always be Changing

We fully understand the world is constantly changing. We will not allow ourselves to be left behind by any aspect of our industry. We strive to always adjust to our customers' needs and modify how we conduct business in order to make life easier for you and your customers.

Always be Growing

Our goal is to push the millwork industry forward with innovative products, high quality service and the best technology available. We simplify growth for our customers by focusing on what we do best: seamless integration, deep selection of high quality products, and quick fulfillment of orders.

Sales & Customer Support

OUR SUCCESS DEPENDS ON YOUR SUCCESS

Here at Ekena Millwork, we fully understand that you are the lifeblood of our business. Without you, we simply would not exist. We will go the extra mile in every possible situation, ensuring your satisfaction with both our products and services.

When you become one of our customers, a millwork specialist is assigned to your account. This person's entire job is to make sure you have everything you need to grow your sales of Ekena products. Each Ekena Millwork Specialist has been fully trained to answer any questions, process orders, and overall handle any issue that arises.

Overall, we guarantee to have the highest quality of sales and customer service support in the industry.

The Making of Urethane Millwork

IN THE HANDS OF THE MASTER

Our urethane millwork line is made up of both standard industry designs as well as our own unique products. Each item begins with a finely crafted original master, which is then used to make several moulds. Ensuring only the highest quality products, each mould is consistently maintained and then immediately replaced if they show even the slightest signs of wear. This gives us the ability to guarantee that the detail of every product we create is as clean and crisp as the first.

Urethane products are created by first spraying the inside of the mould with a barrier coat of primer. Liquid urethane is then poured into the mould, which is quickly shut and sealed. The urethane expands, hardens, and fuses with the coat of primer. The mould is then unlocked and opened, revealing a perfect duplicate of the original product, complete with a finished coat of primer.

The Artistry of Wood Carving

BORN OF ORIGINAL DESIGN

A true carved wood product is authentic as millwork items get. Every wood carving that we carry has been carefully designed to match either historic or contemporary architectural elements. Our vast collection of architectural woodcarvings is sure to meet any design requirements you may have.

As the manufacturer of our products, we have direct control over the quality of wood utilized in all of our carvings. All our raw materials are equal to or higher quality than required by such organizations as AWI, NHLA, KCMA, and The Hardwood Council and only the strongest Type-1 waterproof glue is used in the production of our wood products. With our high quality control standards, we monitor each step of the manufacturing process to ensure both the natural beauty and the quality needed to stand the test of time.

Fiberthane® Balustrade Systems

THE BEST OF BOTH WORLDS. FIBERGLASS AND URETHANE.

Balustrade is one of the finest architectural elements that exists; and we designed the absolute best balustrade product on the market. Our FiberThane® Balustrade System is a hybrid system that utilizes the strength and durability of fiberglass, and the crisp detail of polyurethane.

FiberThane® is the only light-weight system that can span 16' lengths without needing a newel post or column. Not only is it the strongest system available, but with our QuickInstall brackets, it is also the quickest and easiest to install. Additionally, we made sure it is the most cost-effective system you will find!

Table of Contents

TABLE OF CONTENTS OVERVIEW

For quick and easy reference this complete catalog has been divided into major material categories. The material categories are then divided into the appropriate product categories.

EKENA URETHANE MILLWORK

Crown Moulding	6 - 30
Moulding Blocks & Corners	32 - 35
Panel, Chair Rail & Casing Moulding	36 - 54

crossheads & headers

There are few things that can add as much value and enhance the architectural elegance of your project than window and door headers. Simply glue or screw a crosshead over your door or window and you add instant elegance. Pair your new crossheads with pilasters, or even a pediment, to make your project stand out even more. If you can't find exactly what you want, let us know. An architectural consultant will help design the perfect products for your project. And because our products are made out of high-density polyurethane, they will last forever – we guarantee it!

louvers / gable vents

Need a maintenance free gable vent? Ekena Urethane Gable Vents are your perfect solution. Offered as either functional or decorative, our vents come in 15 styles and hundreds of sizes. We even factory prime each vent with an environmentally friendly primer, so they are ready for installation immediately. With a thick brickmold-type trim, our vents can be used in either new construction or surface-mount applications.

FIBERTHANE

balustrade systems

Balustrade is one of the finest architectural elements that exists; and we designed the absolute best balustrade product on the market. Our FiberThane® Balustrade System is a hybrid system that utilizes the strength and durability of fiberglass, and the crisp detail of polyurethane. FiberThane® is the only light-weight system that can span 16' lengths without needing a newel post or column. Not only is it the strongest system available, but with our QuickInstall brackets, it is also the quickest and easiest to install. Additionally, we made sure it is the most cost-effective system you will find!

FiberThane® Balustrade System

INTRODUCTION TO FIBERTHANE®

When we decided to take on the balustrade product category, we wanted to make sure that we did it right. The entire FiberThane® system was designed from the ground up, utilizing state-of-the-art materials for each component. Constructed from pultruded fiberglass, the rails and newel posts are made with some of the strongest and most durable construction materials available. Our balusters are made out of a structural aluminum alloy surrounded by molded polyurethane, giving you the strength structural metal, and the architectural design and crisp detail of urethane.

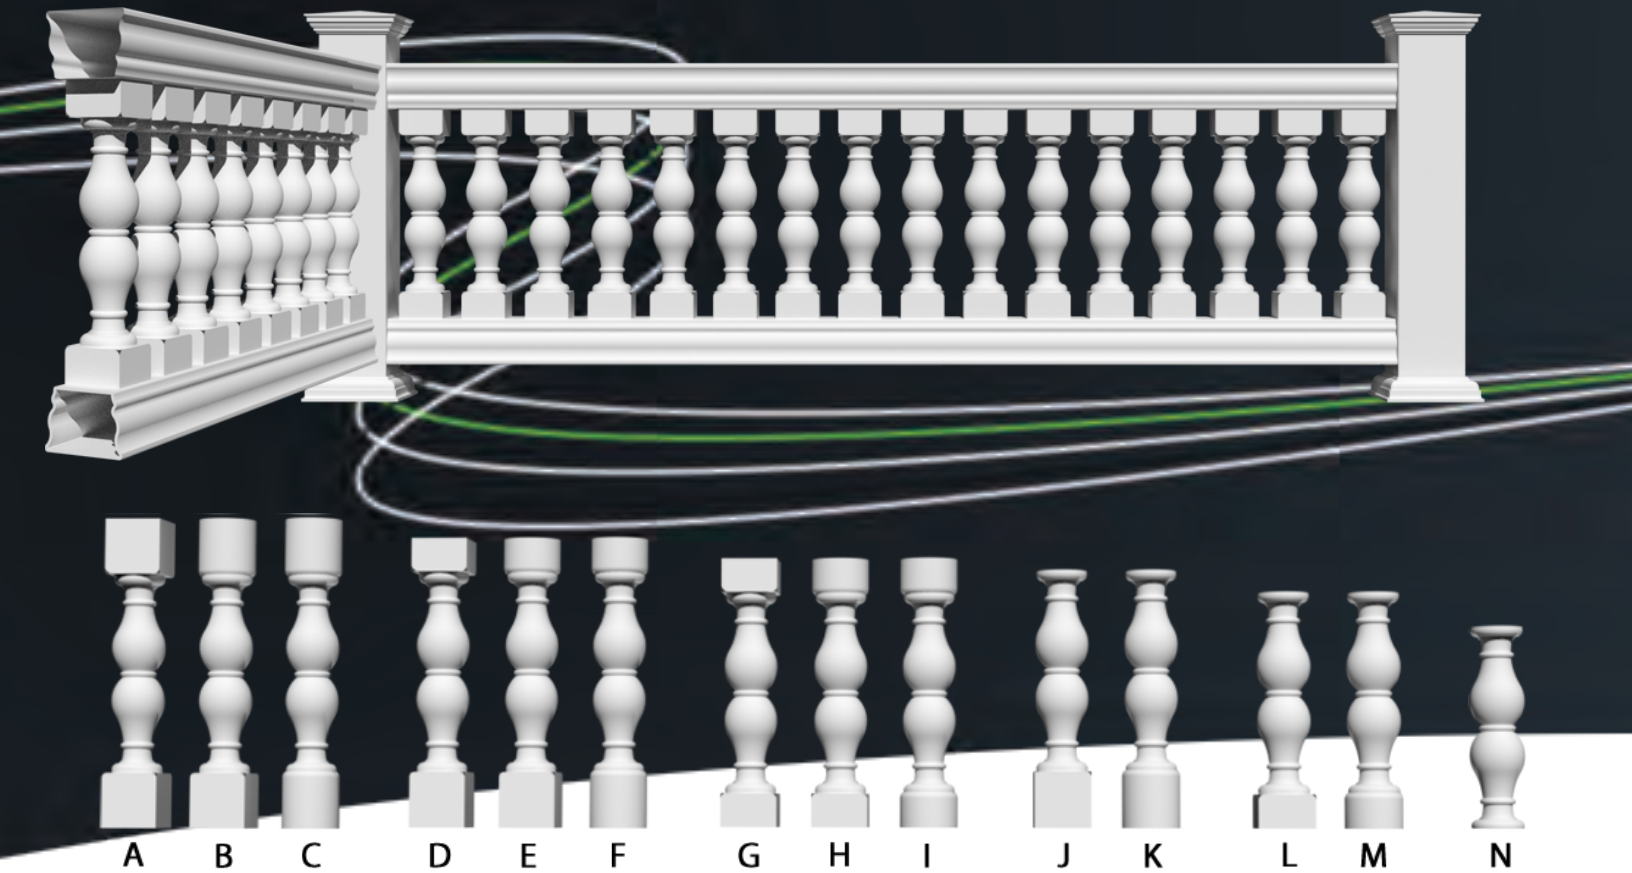

To ensure we offer the perfect baluster for your project, our resident architect designed a vast selection of unique and exclusive balusters, totaling over 100 different designs. Our engineers then developed the easiest and quickest installation process on the market. Our patent-pending Quick-Install brackets allow for a clean, finished installation look, while also being the fastest and easiest install method on the market. Overall, with a huge offering of balusters, easy and quick installation, durable materials, and the fastest lead times, FiberThane® is

WHY CHOOSE THE FIBERTHANE® BALUSTRADE SYSTEM:

- ✓ Fiberglass top and bottom rails are more durable than any other material in the market.
- ✓ Is lightweight (between 15lbs - 22lbs per foot), making it perfect for every application.
- ✓ Can span 16' lengths while still passing construction codes.
- ✓ Rails are sold in one-foot increments. This means no wasted rail.
- ✓ Patent Pending '*QuickInstall*' brackets are concealed and provide a completely finished look.
- ✓ The '*QuickInstall*' brackets allow for quicker installation than traditional methods.
- ✓ Over 100 different baluster designs – balusters available with *either* round or square blocks.
- ✓ Easiest stair installation you have ever seen. Ask us, we will explain.
- ✓ Maintenance free. Impervious to weather, moisture, and insects. Will not crack, chip, or deteriorate.
- ✓ Lifetime warranty.
- ✓ All spindles, rails, and newels are 100% unique designs.
- ✓ Pre-drilled holes or even full length pre-assembled sections are available.
- ✓ Available to ship within 72 hours. Need it faster? Tell us, and we will ship tomorrow!
- ✓ More cost-effective than Urethane or FRP systems.

We will pre-assemble each section of your balustrade system for only \$41.00 per lineal foot.

Rails, Newels, & Accessories

RAILS

Our top and bottom rails are made out of pultruded fiberglass. Pultruded fiberglass is one of the strongest construction materials in the world, and often used in the construction of superstructures. Pound for pound, it is stronger than steel.

- ✓ Using this material, we are able to offer balustrade sections 16' long without needing a newel post or column in the middle.
- ✓ The railings will never rot, warp, dent, or deteriorate and are backed by a lifetime warranty.
- ✓ The rails are light-weight and easily trimmed to your exact lengths.
- ✓ Our patent-pending '*QuickInstall*' rail installation kit is the simplest and fastest installation method on the market. The two-step installation process will save you literally hours of installation time.

NEWEL POSTS

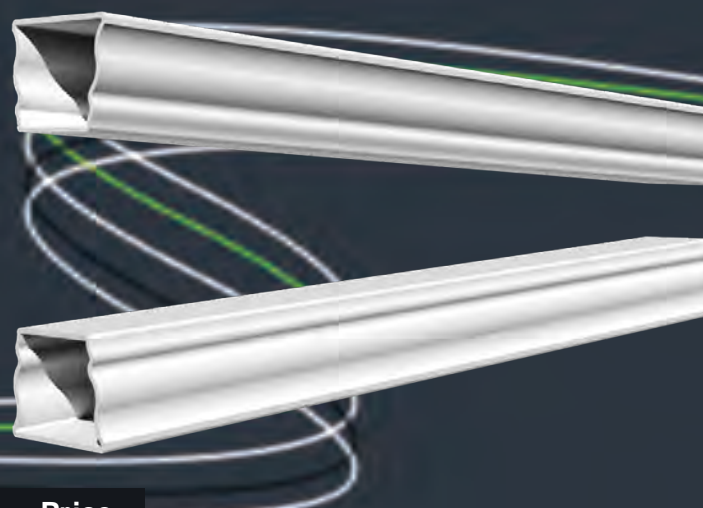

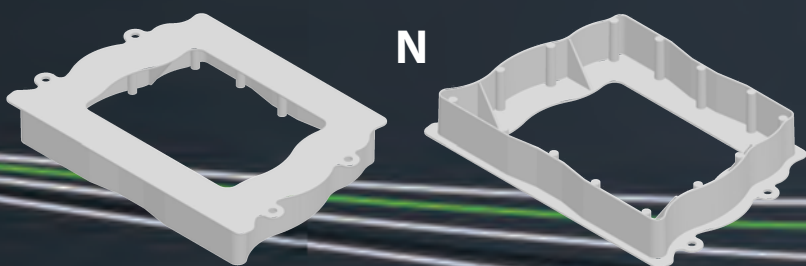

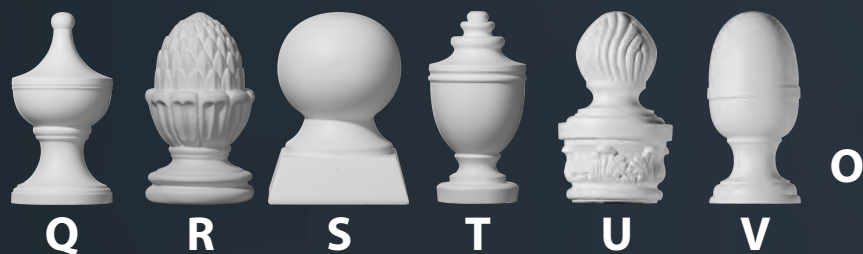

Our newel posts and columns are also made out of pultruded fiberglass, making them structural, lightweight, easy to install, and the strongest newel posts and columns on the market.

With 8" and 10" widths, 40" and 48" heights, and plain or paneled newel posts, we are sure to have the newel post that works perfect for your project.

INSTALLATION HARDWARE

Our engineers designed the simplest and fastest installation method the market has ever seen. Our patent-pending '*QuickInstall*' rail brackets are exclusive to our system, and will save you hours on the installation process compared with traditional "L" bracket systems. The installation brackets are concealed inside the rails, giving the cleanest balustrade installation look available.

Installation Instructions

Figure 1

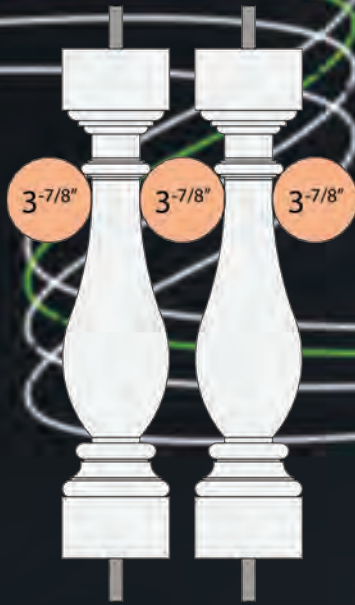

Figure 2

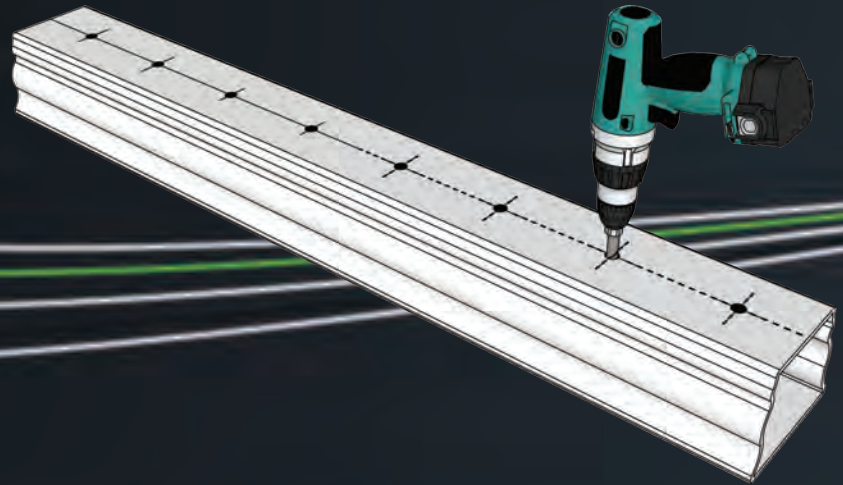

Figure 3

BALUSTRADE INSTALLATION INSTRUCTIONS

1. Installing Newel Posts (Figure 1)

- Use the installation kit or appropriate installation hardware.
- Slide the Trim Collar down to cover up the hardware and glue the collar in place.
- Glue the Post Cap in place with PL Premium.

2. Rail Lengths Needed

- Measure the distance for each section of balustrade you need.
- Cut your top and bottom rails to the lengths that you measured for each section. Cut rails $\frac{1}{4}$ " shorter than needed if using the QuickInstall installation brackets. The Rail Installation Brackets will make up for this $\frac{1}{4}$ ".

3. Determine How Many Spindles You Need for Each Section (Figure 2)

- Divide each section length by the spindle's 'Recommended On-Center-Spacing.' This is the maximum spacing to pass the nation-wide 4" sphere code.
- Round up to the nearest full number. This is how many spindles you are going to use.

4. Spindle Spacing and Pre-Drilling (Figure 3)

- Take the number of spindles that you calculated in step #3, and divide the section's length by that number. This will give you the exact on-center-spacing for that specific section (each section that is a different length will have slightly different on-center-spacing).
- Find and mark the centerline on the top and bottom rails.
- Take the on-center-spacing calculated in "a", and divide it by 2. This will give you the distance from the newel post or wall to drill your first hole. Drill your first hole at this point on the centerline.
- Drill each additional hole along the centerline, at a distance of the on-center-spacing calculated in "a" until all holes are drilled for the section.

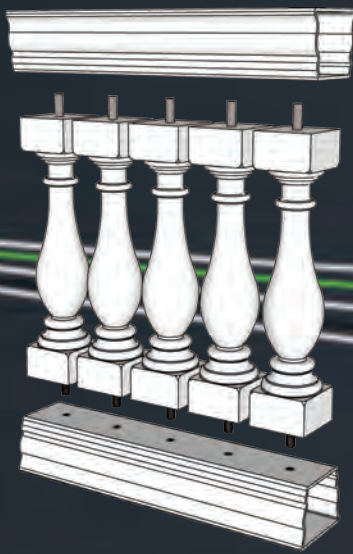

Figure 4a

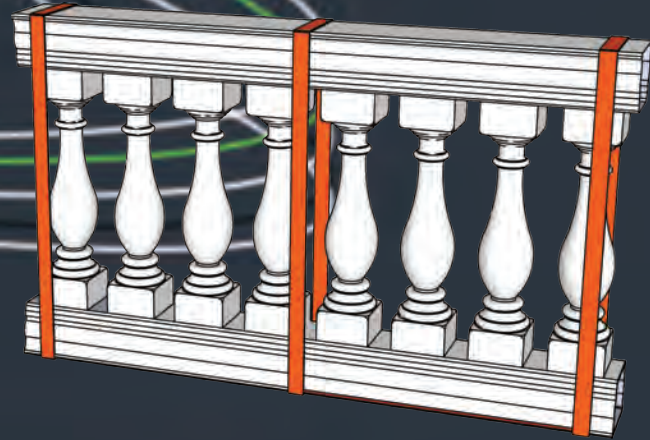

Figure 4b

5. Assemble Each Section (Figure 4)

- a. Apply a small bead of PL Premium adhesive to the bottom of each spindle.
- b. Insert the bottom of the spindle rods into the pre-drilled holes on the bottom rail. Do this for every spindle in the section.
- c. Apply a small bead of PL Premium adhesive on the top of each spindle.
- d. Place the top rail over the spindles, inserting the spindle rods into the pre-drilled holes on the top rail.
- e. Use straps to hold the balustrade section together while the adhesive dries. PL Premium normally dries within 24 hours.
- f. Remove all excess adhesive.
- g. Remove straps once adhesive sets.

Figure 5a

6. Attach the Assembled Sections to Newel Post or Wall (Figure 5)

- a. Apply a bead of adhesive to the rail installation bracket insert.
- b. Insert the rail installation brackets into each side of the top and bottom rail.
- c. Screw the railing brackets into your newel posts/wall.

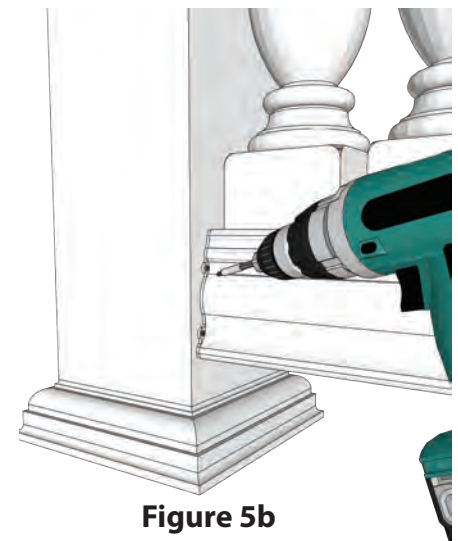

Figure 5b

PRE-ASSEMBLED BALUSTRADE SYSTEMS

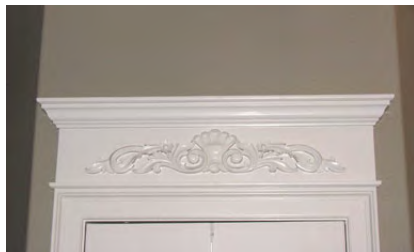

For only \$41.00 per foot, we will pre-assemble each section of balustrade for your project. Just provide us with exact lengths, and your system will arrive to you ready to be installed!

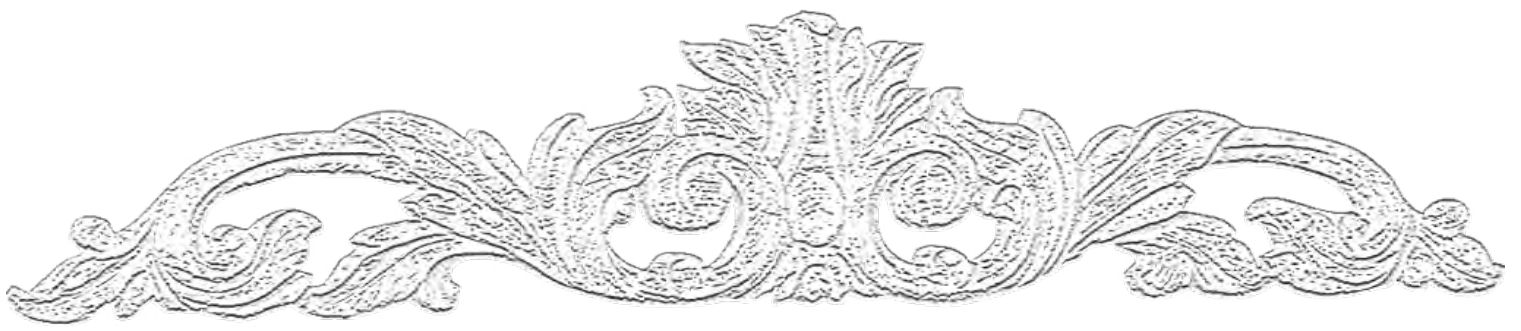

THE ARTISTRY OF WOOD CARVING

A true carved wood product is authentic as millwork items get. Every wood carving that we carry has been carefully designed to match either historic or contemporary architectural elements. Our vast collection of architectural woodcarvings is sure to meet any design requirements you may have.

As the manufacturer of our products, we have direct control over the quality of wood utilized in all of our carvings. All our raw materials are equal to or higher quality than required by such organizations as AWI, NHLA, KCMA, and The Hardwood Council and only the strongest Type-1 waterproof glue is used in the production of our wood products. With our high quality control standards, we monitor each step of the manufacturing process to ensure both the natural beauty and the quality needed to stand the test of time.

OUR PREMIER WOOD COLUMNS

THE PERFECT SOLUTION TO FULFILL ALL YOUR PROJECT NEEDS

Interior Cherry Corinthian Column

The Ekena Millwork line of Wood Architectural Columns are some of the most well-respected architectural products in the industry. With the reputation of excellent craftsmanship, precision wood turning, and flexibility to manufacture any custom column design our Wood Architectural Columns differentiate themselves as the finest columns available.

Our manufacturing flexibility not only includes custom sizes and styles, but also virtually any wood species. Ekena has a long history of manufacturing wood products and can produce a column to your exact specifications.

The beauty of our wood columns is balanced with impeccable precision and quality in manufacturing. Whether you are using interior or exterior columns, our Premier Wood Columns are sure to make your project stand out from the rest.

Our selection of decorative wood columns also includes the Signature Series™, a collection of decorative columns crafted with stunning beauty. When you want something unique and above average, the Signature Series™ has a wide selection to choose from, including the Belly, the Grape-Roped, the Acanthus Leaf, the Twist, and many other specialty column options.

rough sawn & smooth corbels, brackets & rafter tails

Offering 72 different designs, in virtually unlimited sizes, multiple wood species, and even different finishes, this is the largest and most comprehensive selection of wooden brackets, corbels, and rafter tails available in the market. These hand-crafted products are all made out of solid Cedar or Douglas Fir, and with the option of either rustic rough-sawn or smooth milled lumber, they are perfect for any type of project. Can't find one you love? Call us and we will make a custom one just for you!

wood louvers / gable vents

Each wood gable vent is hand-crafted by our expert woodworkers in either Cedar or Pine.

Offering decorative or functional, unfinished or primed, rough-sawn or milled, brick mold or flat trim, 9 different styles, and virtually unlimited sizes, you will not find a better selection of wood gable vents anywhere! Add in competitive pricing and a fast lead time, and you have the best wood gable vent program in the country. Do you need a custom vent made? Ask one of our vent experts and we will make it!

About Wood Gable Vents

Vertical

Round

Diamond

Half Round

Round Top

BRICKMOULD OR FLAT TRIM

All of our vents are available with either a brick mold frame or a standard 1"x4" flat trim. Brick mold trim is perfect for new construction or when you need to run siding up against the vent. For all other applications, the 1"x4" trim will work perfectly for you.

SMOOTH FINISH

The smooth finish Cedar or Pine is milled to perfection in our state-of-the-art wood shop. This option is perfect for a clean, natural look that shows off the natural grain, texture, and color of the wood. The smooth finished vents are also the perfect option if you plan on painting them.

ROUGH SAWN FINISH

Looking for a natural rustic look? The rough-sawn vents offer you the saw-textured surface obtained during the milling process which uses either circular or band saws and gives you the look of freshly cut timber. Whether staining or painting rough sawn lumber, it is a timeless choice.

About Wood Gable Vents

Peaked Top

Octagonal

Arch Top

Triangle

DECORATIVE OR FUNCTIONAL

All our vents are available as either a fully functional air-flow vent, or as a surface-mounted decorative vent. The louver boxes on our functional vents are designed to maximize air-flow while also protecting your attic from the natural elements. Decorative gable vents are designed to be non-functional, surface-mounted vents.

UNFINISHED OR PRIMED

Want the charming, natural look of freshly cut wood? Order an unfinished gable vent and show off the natural beauty of Pine or Cedar. Would you rather have us prime it for you? Our factory-primed vents arrive with two coats of high quality exterior-grade primer, and are ready to be painted.

WOOD SPECIES

We offer all our vents in both traditional Pine or durable Cedar. All of our wood is carefully chosen and hand inspected before being assembled into your vent. After each vent is made, it is again inspected to ensure you receive only the highest quality product on the market.

How to Order Wood Gable Vents

1. Select the size and style
2. Select the trim
 - a. 00 = Brick Mould Face Frame (+15%)
 - b. 01 = 1" x 4" Flat Trim Frame
3. Select the finish
 - a. R = Rough Sawn
 - b. S = Smooth
4. Select functional or decorative
 - a. F = Functional
 - b. D = Decorative (-25%)
5. Select primed or unfinished
 - a. U = Unfinished
 - b. P = Primed
6. Select wood species
 - a. PI = Pine
 - b. WR = Western Red Cedar

How to Order Wood Gable Vents

1. Select the size and style
2. Select the trim
 - a. 00 = Brick Mould Face Frame (+15%)
 - b. 01 = 1" x 4" Flat Trim Frame
3. Select the finish
 - a. R = Rough Sawn
 - b. S = Smooth
4. Select functional or decorative
 - a. F = Functional
 - b. D = Decorative (-25%)
5. Select primed or unfinished
 - a. U = Unfinished
 - b. P = Primed
6. Select wood species
 - a. PI = Pine
 - b. WR = Western Red Cedar

PL Premium

Polyurethane Construction Adhesive

SURFACE PREPARATION: PL® Premium is compatible with all building materials. To ensure positive adhesion, make sure all the surfaces to be joined together are clean and free of dirt and foreign material.

DIRECTIONS: Must wear gloves during application. May stain skin. Place cartridge in caulking gun and puncture seal inside spout. PL® Premium will bridge gaps up to 3/8". Use mechanical fasteners to hold the surfaces in place until the adhesive fully cures. Drying time may vary depending on humidity and porosity of the materials to be bonded. Minimum of 24 hours for full cure. Bond may be repositioned up to 30 minutes. For best performance, use above 40°F (4°C) on clean, dry surfaces.

TECHNICAL DATA:

Base: Polyurethane
 Viscosity: Gun grade mastic
 Color: Light tan
 Open time: Up to 1 hour, depending on temperature and humidity

PACKAGING:

PL® Premium is available in 10.2 oz. cartridges, 28 oz. cartridges and 6.5 gallon pails.

TYPICAL PROPERTIES	PL PREMIUM ADHESIVE	SOLVENT-BASED ADHESIVES	WATER-BASED ADHESIVES
Exceeds VOC compliance regulations	Yes	No	Yes

DURABILITY, SPEED AND STRENGTH

PL® Premium is three times stronger than conventional adhesives. It's weatherproof, has no special storage requirements, won't freeze, it's compatible with all building materials and it sets up and cures faster, giving you a bond that lasts.

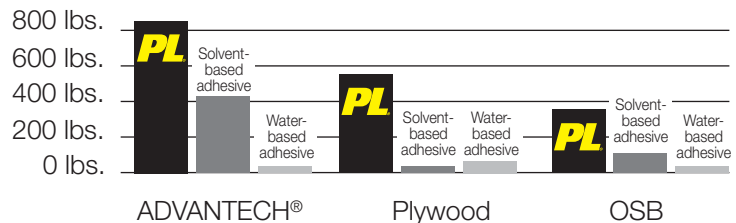

ADHESIVE SURVIVAL RATE

Average data from 10 samples of ADVANTECH® panels after vacuum soaked in hot water (ASTM-D3498)

2-DAY ADHESIVE COMPARISON STRENGTH

Lbs. per 1.5 square inch
 Test performed in compliance with AFG-01 requirements

Flat Paint Finishes

Are you in a time crunch? Are you looking for a millwork piece that is ready to install when you receive it? Then you have come to the right place. We offer several unique finishes, as well as, some standard colors. With all of our pre-finished millwork pieces they come shipped to you, factory painted, with a durable, clear coat to insure beauty for years to come.

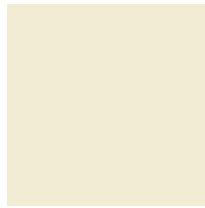

Burnished Mahogany (Flat)

Firebrick (Flat)

Smokey Topaz (Flat)

Pot of Cream (Flat)

Specialty Crackle Finishes

A very popular faux is our crackle. This adds a unique twist to a traditional painted medallion. The ceiling medallion is first primed, and then the base color coat of paint is applied. The top coat is then applied, with an active agent that causes that top coat to separate, giving a beautiful custom. Once the has completely cured, a clear coat is applied to insure a beautiful for years to come.

Specialty Metal & Wood Finishes

Our high quality specialty finishes are custom, hand painted, which give each medallion its own unique character. We offer several metals, including our popular Rust, which gives a beautiful, natural looking, rust. We also offer faux wood grains and colors; these too are handed giving a unique personality to each medallion. Once the finish has completely cured, a clear coat is applied to insure a beautiful for years to come.

Custom Finishes Available

We hand finish each of our millwork products individually and therefore can offer a complete line of custom finishes. If you have a design style or finish in mind, please contact your Ekena Millwork dealer for pricing and availability.

How to Order

There are three basic ways to place an order:

- (1) Place orders via Phone
- (2) Place orders via Fax
- (3) Place orders via Email

Via Phone

Call (866) 607-0453 to place your order over the phone. Make sure to reference your customer account number.

Via Fax

Fax your Purchase Order (PO) to (866) 591-3143 and put it Attn: Order Processing. Your order will be processed within 24 hours.

Via Email

You may email your Purchase Order (PO) to orders@ekenamillwork.com. When emailing a purchase order, please save the file as a PDF document and attach it to the email. If there are any special instructions, please include them on the PO, not in the email content.

Please include the following information on all purchase orders faxed or emailed:

- Ship-to Address
- Contact telephone number for jobsite delivery
- Billing Address
- Item part numbers
- Item quantities
- Special instructions

Custom Fabricated Items

Ekena Millwork® offers a full selection of modified and custom products including vents, crossheads, medallions, etc. For pricing on special sizes or custom, please call or email us at any time.

IMPORTANT INFORMATION: Changes or cancellations of custom products must be done within 24 hours after sending in the order. Fabricated, modified, or custom products are non-returnable after this point.

Standard Shipping & Lead-Time Policy

Ekena Millwork® inventory items are usually available to ship within 1-3 business days after an order is placed (unless otherwise specified).

A small percentage of items require a longer ship-out time and is noted on the individual products page. For unusually large orders, please contact an Ekena Customer Service Representative to work with and determine a ship date.

In back order situations, available partial order quantities may ship, with the balance to follow. Additional charges may apply.

We ship via all major carriers, including UPS, FedEx, and DHL. Most items will ship via UPS or FedEx. Customers are unable to specify the carrier of their choice unless previously agreed to in writing.

General Freight Receiving Information

Receiving Schedules

Most common carriers' rules and regulations require that orders be delivered during "Normal Business Hours." This generally means between 8:00AM to 5:00PM, but could vary depending on the community or the freight company. If the delivery is arbitrarily refused during these normal working hours, an additional charge may be inflicted by the carrier.

Ekena Millwork® is not liable to pay for these additional or accessorial charges regardless of the "Terms of Sales" shown on the sales order or invoice. All additional or accessorial charges incurred will be charged back to the customer. These charges will vary by each carrier.

Examples of additional or accessorial charges:

1. Specifying special delivery hours (\$50.00)
2. Delayed or delaying delivery (\$100.00 minimum)
3. Redelivery (\$75.00 minimum)
4. Sorting and/or segregation of goods (\$100.00 minimum)
5. Palletizing order (\$100.00 minimum)
6. Storing order (\$100.00/day minimum)
7. COD (5% - 15% of the total product value)

Acceptance and Receipt of Goods

While driver is present:

1. Check the driver's delivery receipt and/or Bill of Lading (BOL)

- a. Is the shipment/order yours?
- b. Is all the necessary information or documentation present? (i.e. PO numbers, job name specified, deliver terms, number of items, etc.)

2. Count your freight

Inspect all packages. Make sure that every product you ordered is accounted for and present.

3. Disputed counts or damage – with driver present

It is very important that you confirm the product is received undamaged, from shipment, and is the correct item. To do so, please examine the shipping box and all contents immediately upon receipt for any signs of damage, wrong item(s) or defective product(s). All damaged or incorrect items must be noted on the BOL in driver's presence.

Defective/damaged merchandise can ONLY be replaced. We cannot issue full refund for merchandise that arrives damaged, wrong item(s), or defective and you don't want the merchandise any longer. If merchandise arrives that is incorrect, defective, or damaged we will gladly replace it at NO charge to you (including return shipping charges) by issuing you a UPS Pre-Paid label. The Pre-Paid label must be used for replacement of the same item that was damaged, incorrectly sent, or defective NOT for refund or replacement of a different item.

4. Freight claims

All claims must be initiated within 72 hours of delivery. Please contact our customer service department so that we can initiate the process.

5. Signing the BOL/Delivery Receipt

By signing the BOL and not noting any damaged or missing/incorrect items, the customer is agreeing that the order arrived in perfect condition and was fulfilled correctly. In the event of concealed damage, carriers have no legal obligation to issue a settlement.

Cancellation Policy

1. Custom Orders

- a. "Custom" manufactured orders can be canceled for up to 24 hours after the order is placed. After 24 hours, the order cannot be canceled.
- b. Customers will be charged the full product price for "custom" manufactured orders that are canceled after 24 hours.

2. Catalog Orders ("Stock Items")

- a. Orders placed for standard catalog products or "stocked items" can be canceled or adjusted within 24 hours after receipt of order.
Note: Orders changed or adjusted may delay our previously scheduled lead-times.
Note: A 15% restocking fee may apply to cancellations that are made after 24 hours, if the product has not shipped yet and the cancellation is approved.
- b. Any order that is canceled and/or refused after the order has shipped will be charged a 25% restocking fee along with all applicable "to and from" freight costs and charges associated with the canceled order.

Return Policy

1. All requests for product returns must be approved and receive a designated RGA (Return Goods Authorization) number associated with the order by an authorized Ekena Millwork® Customer Service Representative.
2. RGA numbers are only good for 21 days after date of issue. No returns will be accepted or received after the 21 days.
3. Orders must be approved for return within 60 days of original shipment.
4. All returns that are approved with a designated RGA number are subject to a minimum 25% re-stocking fee. Customer is responsible for all freight charges associated with returning an approved order.
5. Customer "credit" will be issued only after the product has been received back into inventory, all items are accounted for as specified on the RGA, and the items are in re-sellable condition. Any damaged product received back will not be credited and all associated re-stocking charges may apply. Payment deductions against RGA's are not allowed without an authorized "credit memo" from Ekena Millwork®.
6. Customer "credit" will be issued within 1-2 weeks of receiving the returned goods in acceptable condition, less:
 - a. Re-Stocking Charge
 - b. Freight charges (if applicable)
 - c. Damages, concealed shortages or discrepancies

Ekena Millwork® Urethane General Information & Limited Lifetime Warranty

Before you use or install any Ekena Urethane products, please review the information below. Ekena Urethane products:

- Should be used for decorative applications only (unless clearly stated otherwise in catalog)
- Are very easy to repair. With the use of wood filler or automotive bondo/filler, dents or gashes of any size can be quickly filled.
- Will resist the natural elements, except for direct sunlight to the unpainted yellow/tan underside of the millwork. It is important to fill damaged or cut surfaces within a few days.
- Can withstand temperatures of about 140°F. However, the items should never be placed in an area subject to solar temperature building, such as behind a storm door or similar application.
- Should never be installed with mechanical fasteners only. Best installation requires non-corrosive fasteners along with urethane base PL Premium Adhesive.
- Should not be stored in extreme heat. Ekena® Urethane products should be acclimated for two days prior to installation.
- May require altered installation procedures to meet local specifications. Please check local building codes prior to installing.

Ekena Millwork® Limited Warranty

Ekena Millwork® provides a LIFETIME WARRANTY to the original purchaser of our Ekena line of urethane millwork. This LIFETIME WARRANTY provides that the urethane material will be free from manufacturer defects in material and workmanship under approved normal use.

If a defect is discovered in an Ekena urethane product and the above conditions have been met, the customer should notify Ekena Millwork® in writing within thirty (30) days of discovering the said defect. The customer may be required to return the product to Ekena Millwork® for evaluation. Ekena Millwork® will then review the product and installation methods, and determine if replacement, repair, or refund is appropriate. This warranty does not cover or include labor, transportation costs, or any other expenses incurred in connection with the purchase, use, or installation of the item(s). Replacements, repairs, or refunds are the only options under this limited warranty.

This limited warranty does not cover damage from the result of mishandling in transportation, acts of God, customer modifications, vandalism, misuse, abuse, improper maintenance, unreasonable care, or other causes that did not arise from manufacturer defects in workmanship and/or materials. No person, retailer, sales rep, dealer, service facility, or entity of any type is authorized to change, modify, or amend the terms of this limited warranty in any manner. Ekena Millwork® shall not be liable to the customer or to any other entity for any incidental or consequential damages or loss of profit from any defect in any items.

Ekena Millwork® Specifications

1.1 Product Description

- 1.1.1 Ekena Urethane products are made with high density polyurethane with an overall density similar to white pine at 13 to 17 pounds per cubic foot. The Ekena Urethane process provides a greater skin density than core density for increased durability.
- 1.1.2 All products are manufactured with a white or semi-white color coating. Further, these products receive a primer coat finish before they are shipped to customers. The combination of the integral shell-like skin, the barrier coat, and the primer top coat provide an excellent substrate for durable finishes.
- 1.1.3 Ultra violet rays do not affect properly coated products.
- 1.1.4 The compressive strength of polyurethane products falls within the 300-400 P.S.I. range. (The parts are not intended for structural use).
- 1.1.5 The tensile strength of polyurethane products falls within the 350-400 P.S.I. range. (The parts are not intended for structural use).
- 1.1.6 The degree of flexibility of any given polyurethane product is determined by the size and shape of its cross section.
- 1.1.7 Ekena Urethane has a closed cell structure which provides protection from most solvents and renders it almost completely hydrophobic. It will not rot.
- 1.1.8 All Ekena Urethane products resist the growth of mildew and fungus and further provide no nutritional value for other organisms such as small rodents.

1.2 Submittals

Submit Ekena Urethane product data and shop drawings for customer approval.

2.1 Acceptable Manufacturer

- 2.1.1 Ekena Millwork®
2300 West Main St.
Clarksville, TX 75426
Phone: (866) 607-0453
Fax: (866) 591-3143
Web: www.ekenamillwork.com

3.1 Installation

- 3.1.1 Ekena Millwork® urethane products are handled in the same manner as wood millwork.
- 3.1.2 Ekena Millwork® adhesives refer to model PL Premium.
- 3.1.3 Fasteners refer to nails, screws, bolts etc.
- 3.1.4 Ekena Millwork® adhesives and fasteners must be used for installing all Ekena Millwork® products on concrete, metal, vinyl or wood. Adhesive must be used on all joints to ensure the beauty of your installation for years to come.

3.2 Finishing

Ekena Millwork® products are supplied with a white or beige primer base coat, ready for finishing top coat. A good quality exterior or latex or oil base paint may be used on rigid Pacific Columns, Inc. product. The surface must be clean, dry, and free from all greases or waxes before all finish work is begun.

3.3 Warranty

3.3.1 Ekena Millwork® warrants its Ekena urethane product upon the following conditions against defects in materials and workmanship for the product's lifetime when used and installed under recommended conditions.

Purchaser and installer must inspect each piece prior to installation. Both parties waive all defects which could have been discovered by reasonable inspection prior to installation.

3.3.2 Warranty will automatically be void if Ekena Millwork® installation methods are not used as per section on Installation.

3.3.3 In the event claim is made under this warrant, Ekena Millwork® has the right to inspect the part and determine at their discretion, that the parts supplied are defective. Ekena Millwork® will repair, or if necessary, replace the defective parts if returned freight prepaid to Ekena Millwork® place of manufacturing. Ekena Millwork® determines the parts cannot be repaired or replaced, Ekena Millwork® will refund to the distributor the amount paid to Ekena Millwork® for the said defective parts.

3.3.4 Ekena Millwork® shall have no liability to any person, firm or corporation whatsoever for incidental or consequential damages such as but not limited to, labor, finishing, parts damaged by freight carriers, freight charges, installation, lost profits, and lost sales or the like.

3.3.5 No purchaser may take any deduction or credit against any amount owed to Ekena Millwork® or make any charge back without the expressed written consent of Ekena Millwork®.

3.3.6 Further warranty information can be found in the Lifetime Warranty Section of the catalog.

THE EKENA MILLWORK COLLECTION

One of our goals is to offer you the most complete architectural millwork line in the industry. In an effort to do so, we continue to add products and product lines to our offering on a regular basis. Some of our standard products include:

- Balustrade
- Brackets
- Ceiling Domes
- Ceiling Medallions
- Columns
- Corbels
- Crossheads & Headers
- Crown Moulding
- Door Knockers
- Finials
- Fireplace Surrounds
- Gable Vents
- Niches
- Onlays
- Panel Moulding
- Pediments
- Pilasters
- Plinth Blocks
- Rosettes
- Shutters
- Shutter Hardware
- Wall Sconces
- Window & Door Trim
- Wood Brackets
- Wood Gable Vents

For a complete product listing, please visit us at:
www.ekenamillwork.com

BALUSTRADE

WOOD CARVING

CEILING MEDALLIONS

WOOD GABLE VENTS

BRACKETS

MOULDING

PRODUCT BROCHURES

In addition to this extensive catalog and price list, we have product-specific brochures available. Each brochure contains pictures, descriptions, and part numbers for every product in that category – but they do not contain any product pricing. The brochures also open up to form a large poster. This makes them perfect as both a handout, and a marketing display.

DISTRIBUTED BY:

NOT JUST A PRODUCT...A SOLUTION.
